# WELCOME MESSAGES

Assalamualaikum Warahmatullahi Wabarakatuh.

Infinite gratitude and praise be unto Allah. The Neurology landscape in 2024 is poised for significant transformation, driven by recent studies reflecting the rapid advancement of knowledge in the field. Subspecialties like Neurovascular and Neurorestoration are progressing even faster. Guidelines and Consensus in 2024 are likely to undergo swift changes, refining their predecessors. The implementation of guidelines has proven to be cost-effective and ensures therapeutic efficacy. However, globally oriented guidelines may not seamlessly apply at the domestic level, necessitating policies and wisdom for implementation in Indonesia. Perhimpunan Dokter Spesialis Neurologi Indonesia (PERDOSNI) plays a crucial role in realizing these objectives.

Pertemuan Ilmiah Nasional (PIN) organized by PERDOSNI, scheduled for May 26 to June 1 in Surabaya, will delve into the latest developments in Neurovascular disciplines (Stroke and vessel, Neurointervention, Neuroimaging, Neuro-otology, and Neuro-ophthalmology), Neurorestoration & Neuroengineering, Neuroepidemiology, as well as Law and Ethics. The theme for PIN PERDOSNI 2024 is "Unlocking Recent Evidence and Practice Guideline: Bridging the Gap within the Indonesian Context."

The Surabaya committee in May 2024 will warmly welcome and facilitate various scientific discussions encompassed in symposiums, workshops, poster and oral presentations, as well as a neurovascular competition among neurology education centers in Indonesia.

Wishing you a fruitful participation in PIN PERDOSNI 2024 and a warm welcome to the Heroic City of Surabaya.

Wassalamu 'alaikum Warahmatullahi Wabarakatuh.

**Chairman of the PIN PERDOSNI 2024**  
**Dr. Achmad Firdaus Sani, dr., Sp.N., Subsp.NIIIO(K), FINS**

# WELCOME MESSAGES

Assalamualaikum Warahmatullahi Wabarakatuh

We give thanks for the presence of Allah SWT, for His grace and guidance so that we can still serve the community, especially in the field of neurological health in Indonesia. The Association of Indonesian Neurologists (PERDOSNI) will hold the PERDOSSI National Scientific Meeting (PIN) on 30<sup>th</sup> May - 2<sup>nd</sup> June 2024, in Surabaya with the theme Topics "Unlocking Recent Evidence and Practice Guidelines : Bridging the Gap with Indonesia context.". The theme proposed by the committee is very appropriate in accordance with the development of neurology services which lately quite prosper and accelerate so agile.

This scientific activity is very important and beneficial for the cultivation of doctors, especially colleagues and neurologists throughout Indonesia. I am sure PIN PERDOSNI Surabaya 2024 will be very interesting because it has updated topics in the fields of stroke, neurointervention, neuroimaging, neurootology & neuroophthalmology, neurorestoration & neuroengineering, neuroepidemiology, and presented by national and international experts in their fields.

Finally, I would like to thank the committee and other parties who will be involved in this event, I hope we are all in good health and can participate directly at PIN PERDOSNI Surabaya 2024.

See you in Surabaya.

Wassalamualaikum Warahmatullahi Wabarakatuh

**Chairman of the PERDOSNI**

**Dr. Dodik Tugasworo P., dr., Sp.N, Subsp. NIIIO(K)., MH.,Kes**

# POSTER PRESENTATION

The National Scientific Meeting (Pertemuan Ilmiah Nasional (PIN) 2024) committee invites you to submit your abstracts of original research which are related to the main topic of the congress. The Scientific Abstract Reviewer Committee will evaluate and select the abstracts based on quality, clarity and relevance on main topic.

## ABSTRACT SUBMISSION & GUIDELINES

### General Policies

1. Participants should be registered as the participants of the National Scientific Meeting 2024.
2. The winning (all) article will be published in **Neurona Journal**.
3. Participants should pay attention to the deadlines of abstract submission and other updates in the website (<https://pinperdosni2024.com>).
4. Participants should review carefully and follow all the requirements related to the abstract and manuscript.
5. Participants should fill in the submission agreement before uploading abstract.
6. The publication rights will belong to the committee.
7. Participants should follow the committee's decision.

### General Requirements and Article Flow Process

1. The committee receiving article as an Abstract for the Judgement process.
2. Article theme can only be taken from Neurovascular, Neuroimaging, Neurointervention, Neuro-otology & Neuro-ophthalmology, Neurorestoration & Neuroengineering, Neuroepidemiology, and Medicolegal & Ethical Issues in Neurology.
3. Scientific Article is an original article that never published before.
4. The article type is Case Report or Research Article.
5. Participant should register an email account and phone/whatsapp number for the communication process related to the article.
6. Abstract submission, publication manuscript, and E-poster can be uploaded through the website after registration.
7. Abstract requirements can be downloaded at <https://tinyurl.com/FormAbstrakPINPERDOSNI>.
8. Full-text manuscript and E-poster requirements can be downloaded at <https://tinyurl.com/FormatFulltext-Poster>.
9. Abstract submission starts on **January 2<sup>nd</sup>, 2024 at 00.00 until April 15<sup>th</sup>, 2024 at 23.59 WIB**.
10. The Scientific Abstract Reviewer Committee will evaluate and select all abstracts for Oral and Poster Presentation. And it will be announced at **April 24<sup>th</sup>, 2024**.
11. The committee will review the abstract's eligibility to be published in the event proceeding book.
